

baby lock

enspire

UP
GRADE

More freedom when overlocking with total control.

Sewing is a hobby that offers you a high degree of individuality, and allows you to follow your artistic inclinations, exchanging ideas with fellow enthusiasts. This is the baby lock ideal!

The enspire is baby lock's most compact overlock machine. It's manual thread tension can be finely tuned to each stitch and fabric, allowing total control. Thanks to the bright LED lamp, you can see every modification immediately. The cutter gap and chaining finger move together at the same time to prevent loopy edges. Fraying edges belong to the past.

The 2-stage presser foot height with up to 8 mm offers even more ease in changing fabric. It allows you to sew several layers of varied fabrics

The baby lock brand for many decades has been a favourite for it's ease of use. Both beginners and advanced sewers can enjoy the machines' special technical features, such as the handy air threading system.

Even if you are using the machine for the first time, you can focus on your project and start sewing immediately without tiresome threading. Everybody loves the outstanding sewing results, no matter what fabrics and threads are used.

Melina tells us about the *enspire* from baby lock:

„I would always buy a baby lock again.“
